

Advanced AX5

+10% TRANEXAMIC ACID

Advanced pigment balancing formula features SIX stabilized AHA/BHA acids to improve texture, tone and visible signs of aging.

| KEY INGREDIENTS | BENEFITS |
|-----------------------------|--|
| Tranexamic Acid | Helps balance uneven pigmentation while improving the look of stubborn brown spots. |
| Trichloroacetic Acid | Exfoliates dead surface skin cells to improve texture and minimize the appearance of enlarged pores. |
| Phytic Acid | Brightens and balances areas of discoloration. |
| Glycolic Acid | Targets the appearance of fine lines, wrinkles and overall skin condition to improve texture and tone. |
| Delta Lactone | Provides skin exfoliation with antioxidant benefits while improving redness. |
| Salicylic Acid | Reduces pore congestion and improves overall skin texture. |

AM | PM • ALL SKIN TYPES
